

Presently, I am a fourth grade teacher at York Elementary School. I love teaching at York! The staff is wonderful and the students are hard workers! I use a variety of teaching strategies in my classroom to meet the needs of all students. I incorporate multiple intelligence as well as differentiation strategies to make learning fun and enjoyable. We read, sing, act, create, write, compose, solve and explore - all in a matter of a day! Our class is always learning about something new!
