About BHS

Bellevue High School (BHS) is a four-year comprehensive high school that offers rigorous college and career readiness coursework. BHS aspires to be the most innovative student-focused public school in Ohio by educating every child, every day with intent, integrity and purpose. We offer students an eight-period school day with 43-minute classes. BHS is proud to offer our students multiple opportunities to earn college credit while in high school through our Advanced Placement (AP) program and College Credit Plus partnerships (formerly Dual-Credit and PSEO). BHS is nestled in northern Ohio between the metropolitan cities of Toledo and Cleveland. Our community and school district are truly in the “heart of it all.”

BHS Commitment to Technology

BHS is committed to the application and use of technology in the classroom. We maintain over 600 computers and Chrome-books in the building. We have interactive whiteboard technology and at least one computer in every classroom for instructional purposes. We offer all students accounts through the Google Docs program in addition to parent and student access to our online grade book program. Our building is equipped with numerous wireless access points, allowing us to utilize a “bring your own device” initiative to supplement the devices we already have for our students. Lastly, we offer our students, families and community members very active social media outlets. These outlets allow our stakeholders to easily stay abreast of the amazing activities and accomplishments that are occurring daily at BHS.
