

Dear Parents,

This week, the Middle School Guidance counselors have been visiting the Sixth and Seventh grade ILA classes to begin scheduling students for next year's elective courses. Middle School students are choosing two periods of elective classes for the 2012-2013 school year. Students have been instructed to share their elective choices with you. If after talking with your child you would like them to make a change to their requests, that can be done by contacting either of the school counselors. We ask that any changes to a student's request for electives be done by next Friday, February 17th.

If you have any questions about your student's elective choices, please contact the either Mr. Dryfuse or Mrs. Motley during regular school hours. We would be happy to discuss your child's options with you. We can also be reached by email through the Middle Schools home page. A sheet with the complete list of grade specific elective choices is available through a link on the Middle School guidance page.
