Registration

Guidelines

HIGH SCHOOL

What I Should Know and Do

As a Freshman

- ❑ Know your school counselor
 - ❑ Mrs. Mohr – students with last name A-L
 - ❑ Mr. Siesel – students with last name M-Z
- ❑ Attend Freshmen Transition Day
- ❑ Become active in clubs/organizations
- ❑ Establish strong study skills
 - ❑ Peer tutoring is available through the guidance office
- ❑ Consider College Credit Plus opportunities (meeting in February)

As a Sophomore

- ❑ Order class ring
- ❑ Attend EHOVE presentation & visitation (October-December)
- ❑ Consider College Credit Plus/Tech-Prep Option/ EHOVE

As a Junior

- ❑ Start college search
- ❑ Schedule college visits (two during junior year)
- ❑ Investigate college options (internet, guidance office, campus visits)
- ❑ Consider College Credit Plus/Advanced Placement courses (March)
- ❑ Register to vote when you turn 18 (paperwork available in the BHS Guidance Office)
- ❑ Register for Selective Service (when males turn 18) online @ www.sss.gov
- ❑ Register for April or June ACT and/or SAT
- ❑ Schedule senior picture session with photographer in the spring
- ❑ Participate in job shadowing

As a Senior

- ❑ Register for September, October, or December ACT and/or SAT
- ❑ Review credits needed for graduation at beginning of school year with your school counselor
- ❑ Complete college search (information in guidance office)
 1. Schedule college visits (three allowed during senior year)
 2. Letters of Recommendation (provide your student profile to the person writing the recommendation). Include list of clubs and organizations, honors and awards, athletic involvement, community experience/service, work experience. Include years involved and offices held.
 3. Applications for Admission (best to be completed by winter break; transcripts and paper applications sent through guidance office)
 4. Financial Aid (attend Financial Aid night in January)
 5. Scholarships (available @ www.bellevueschools.org, click on high school, click on guidance department)
 6. Apply for NCAA Eligibility (Those who plan on participating in NCAA Division I or II athletics or NAIA athletics must meet NCAA or NAIA eligibility requirements. Students should contact their school counselor and athletic director for the most current eligibility guidelines.)
- ❑ Register to vote when you turn 18 (paperwork available in the BHS Guidance Office)
- ❑ Register for Selective Service (when males turn 18) online @ www.sss.gov
- ❑ Order graduation announcements and have your senior yearbook picture taken

BHS students who do not attend classes regularly at BHS are encouraged to stay updated on school activities and school functions through contact with students attending BHS. EHOVE students should refer to the Bellevue bulletin board at EHOVE for updated information. Additionally, the BHS website posts announcements every day (www.bellevueschools.org, click on high school, then high school announcements).

**Glossary
of
Terms**

ACT (American College Test)

- an achievement test taken to measure academic skills for college entrance purposes
- composed of four sub-tests (English, Reading, Math, Science Reasoning) and an optional writing test (suggested to take first time by guidance office)
- multiple choice test; no penalty for guessing
- national average composite score = 21
- accepted by most colleges and universities in Ohio
- offered in September, October, December, *February, April, & June
*not given at Bellevue High School

Advanced Placement Program – program designed to give high school students the opportunity to take college level classes while still enrolled in high school. Colleges may award credit based on AP exam performance.

Athletic Eligibility – minimum academic standard required for a student to participate in interscholastic athletics for the succeeding grading period.

OHSAA Requirements:

- ◆ Pass courses that will earn a minimum of 5 credits toward graduation in the immediately preceding grading period
- ◆ Semester and final grades have no effect on eligibility

Board Policy:

- ◆ Must be passing courses that will earn the student a minimum of 5 credits toward graduation **AND** maintain a GPA of no less than a 1.0 in those courses that determine eligibility. Students are still permitted to participate in interscholastic programs if they have failed a class but still meet the above stated criteria.

**Failure to comply with these eligibility requirements will result in ineligibility for the following grading period.

College Credit Plus – formerly known as dual-credit or Post-Secondary Enrollment Option (PSEO). Students enrolled in College Credit Plus receive both high school and college credit while enrolled at an Ohio college/university.

Course of Study – course offerings needed to prepare a student for a particular career path.

Types:

College Preparatory – (Two or four-year colleges/universities) –includes course offerings to prepare a student for admission to a two-year or four-year college to earn an Associate’s or Bachelor’s Degree.

Career-Technical Preparatory – includes course offerings to prepare a student for further educational training or to enter a job in a particular field immediately after graduation.

Credit Flexibility – this is an option to earn credit in a non-traditional manner and is available to all students through an application process. See your school counselor for more information.

Elective Course – an optional course that will enrich the academic program and further the learning experiences of students.

Job Shadowing – a junior or senior year option where the student has the opportunity to experience the world of work with someone actively and professionally involved in a career of their choice.

NCAA Eligibility Center - handles registration of any senior interested in participating in athletics at a Division I or II college/university. Log onto www.eligibilitycenter.org.

Prerequisite- a required class or required criteria needed before taking a particular course.

PSAT-NMSQT (Preliminary Scholastic Achievement Test/National Merit Scholarship Qualifying Test)

- ◆ optional but encouraged for college-bound juniors and sophomores.
- ◆ used to measure college readiness and qualify junior students for National Merit Scholarships
- ◆ administered in October at BHS

Redmen Online Learning Academy – is an alternative educational opportunity for BHS students. Eligible students work primarily through a Virtual Learning Academy to complete coursework. Additional information is available through your school counselor.

Required Course – a course that must be passed in order to qualify for graduation.

SAT (Scholastic Achievement Test)

- an achievement test taken to measure academic skills for college entrance purposes
 - composed of three sub-tests (Verbal Reasoning, Math Reasoning, Writing)
 - slight penalty for guessing
 - national average combined score = 1020
 - often required by selective/competitive colleges and universities
 - offered in October, November, December, January, March, May, & June
- *SAT is not given at Bellevue High School

School Fees – a student can expect certain fees to occur during their high school experience.

- ◆ Some annual fees may include: an incidental fee, student handbook fee, parking permit fee, etc. A senior fee is charged for cap and gown.
- ◆ Class fees can cover the costs basic consumable supplies needed in the classroom. Additional fees may be necessary for workbooks, supply costs for individual projects and other items necessary for classroom success.

Summer School – summer school will be available at BHS and/or EHOVE for students interested in obtaining additional academic course work. Courses are offered through the Virtual Learning Academy online program. Tuition is charged for these classes. See your school counselor for more information.

Tech-Prep – program through EHOVE and BGSU Firelands. Students are eligible to earn college credit towards an Associate's Degree and encouraged to continue the program upon high school graduation. See your school counselor for more information.

Work-Study – students eligible for early release/late arrival time from school for a job may receive additional credit for work experience. Students should see their school counselor for more information.

Course

Descriptions

AGRICULTURAL EDUCATION

AGRICULTURE, FOOD, & NATURAL RESOURCES (0031)

Year, 1.0 Credit

Grades 9, 10, 11, 12 (1st Year)

Prerequisites: None

Class Fee: Yes

This first course will introduce students to the breadth of the Agricultural and Environmental Systems career field. Students will examine principles of food science, natural resource management, animal science & management, plant & horticultural science, power technology and bioscience. In addition, students will examine the FFA organization and Supervised Agricultural Experience programs. Throughout the course, students will develop communication, leadership and record keeping skills.

Shop Project: Cord caddy, toolbox, or equivalent of independent project

ANIMAL & PLANT SCIENCE (0132)

Year, 1.0 Credit

Grades 10, 11, 12 (2nd Year)

Prerequisites: Must have passed Personal Development & Leadership

Class Fee: Yes

In this course, students will apply knowledge of animal and plant science to the agriculture industry. They will be introduced to animal body systems, plant structures along with the growth and reproductive practices of both. Students will evaluate conditions of animals and plants for their general welfare. Business principles will be examined along with the professional skills needed for success in these career areas.

Shop Project: Bird feeder, step stool, hot box, plant stand, fishing pole rack, or equivalent of independent project

AGRICULTURAL BUSINESS (0034)

Year, 1.0 Credit

Grades 11, 12 (3rd Year)

Prerequisites: Must have passed Animal & Plant Science

Class Fee: Yes

Students will learn the components of agricultural business by developing a business plan, applying marketing and sales techniques and identifying business structures. Students will learn about leadership and management styles and the impact they have on business. Students will learn that agro-security, finance, career development and human resources are important components of business management. Students will also create a resume with references, cover letter, properly fill out a job application, learn to write follow-up letters and experience a job interview.

Class Project: Portfolio that will include a business plan, resume, references, cover letter, job application, follow-up letter and various other pieces of work that are created through this class

ENERGY SYSTEMS MANAGEMENT (0145)

Year, 1.0 Credit

Grades 12 (4th Year)

Prerequisites: Must have passed Agricultural Business

Class Fee: Yes

Students will apply basic principles of energy accounting, thermodynamics and heat transfer, energy conversion and efficiency to heating, power generation and transportation. Topics include applying the principles and practices needed for managing renewable energy sources; including, solar thermal, hydrogen generation, photovoltaic, wind and biomass use. In addition, students will examine principles and practices needed for managing fossil fuels. Throughout this course, future energy systems and energy use scenarios are investigated, with a focus on promoting the use of renewable energy resources and technologies.

Group Project: Replica wind turbine and other projects deemed necessary by the instructor

MECHANICAL PRINCIPLES (0136)

Year, 1.0 Credit

Grades 12 (4rd Year)

Prerequisites: Must have passed Agricultural Business

Class Fee: Yes

Students will engage in the mechanical principles utilized in animal and plant production systems. They will learn electrical theory, design, wiring, hydraulic and pneumatic theory, along with metallurgy in relation to hot and cold metals. Students will apply knowledge of sheet metal fabrication applicable to the agricultural industry along with identifying, diagnosing and maintaining small air-cooled engines. Throughout the course, students will learn critical components of site and personal safety as well as communication and leadership skills.

Shop Project: Boot scraper, hose hook, name plate, metal sawhorse, or equivalent of independent project

INDEPENDENT STUDY

Year, 1.0 Credit

Grades 11, 12

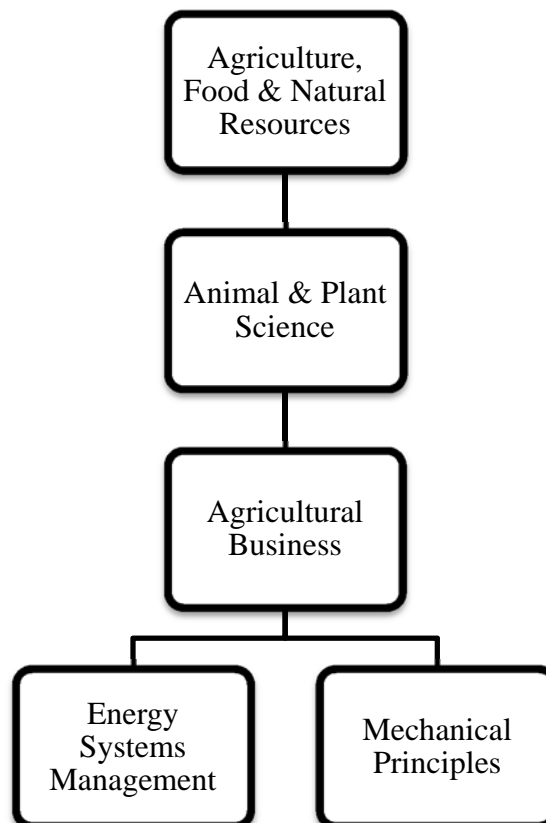

Prerequisites: Teacher Approval

Class Fee: No

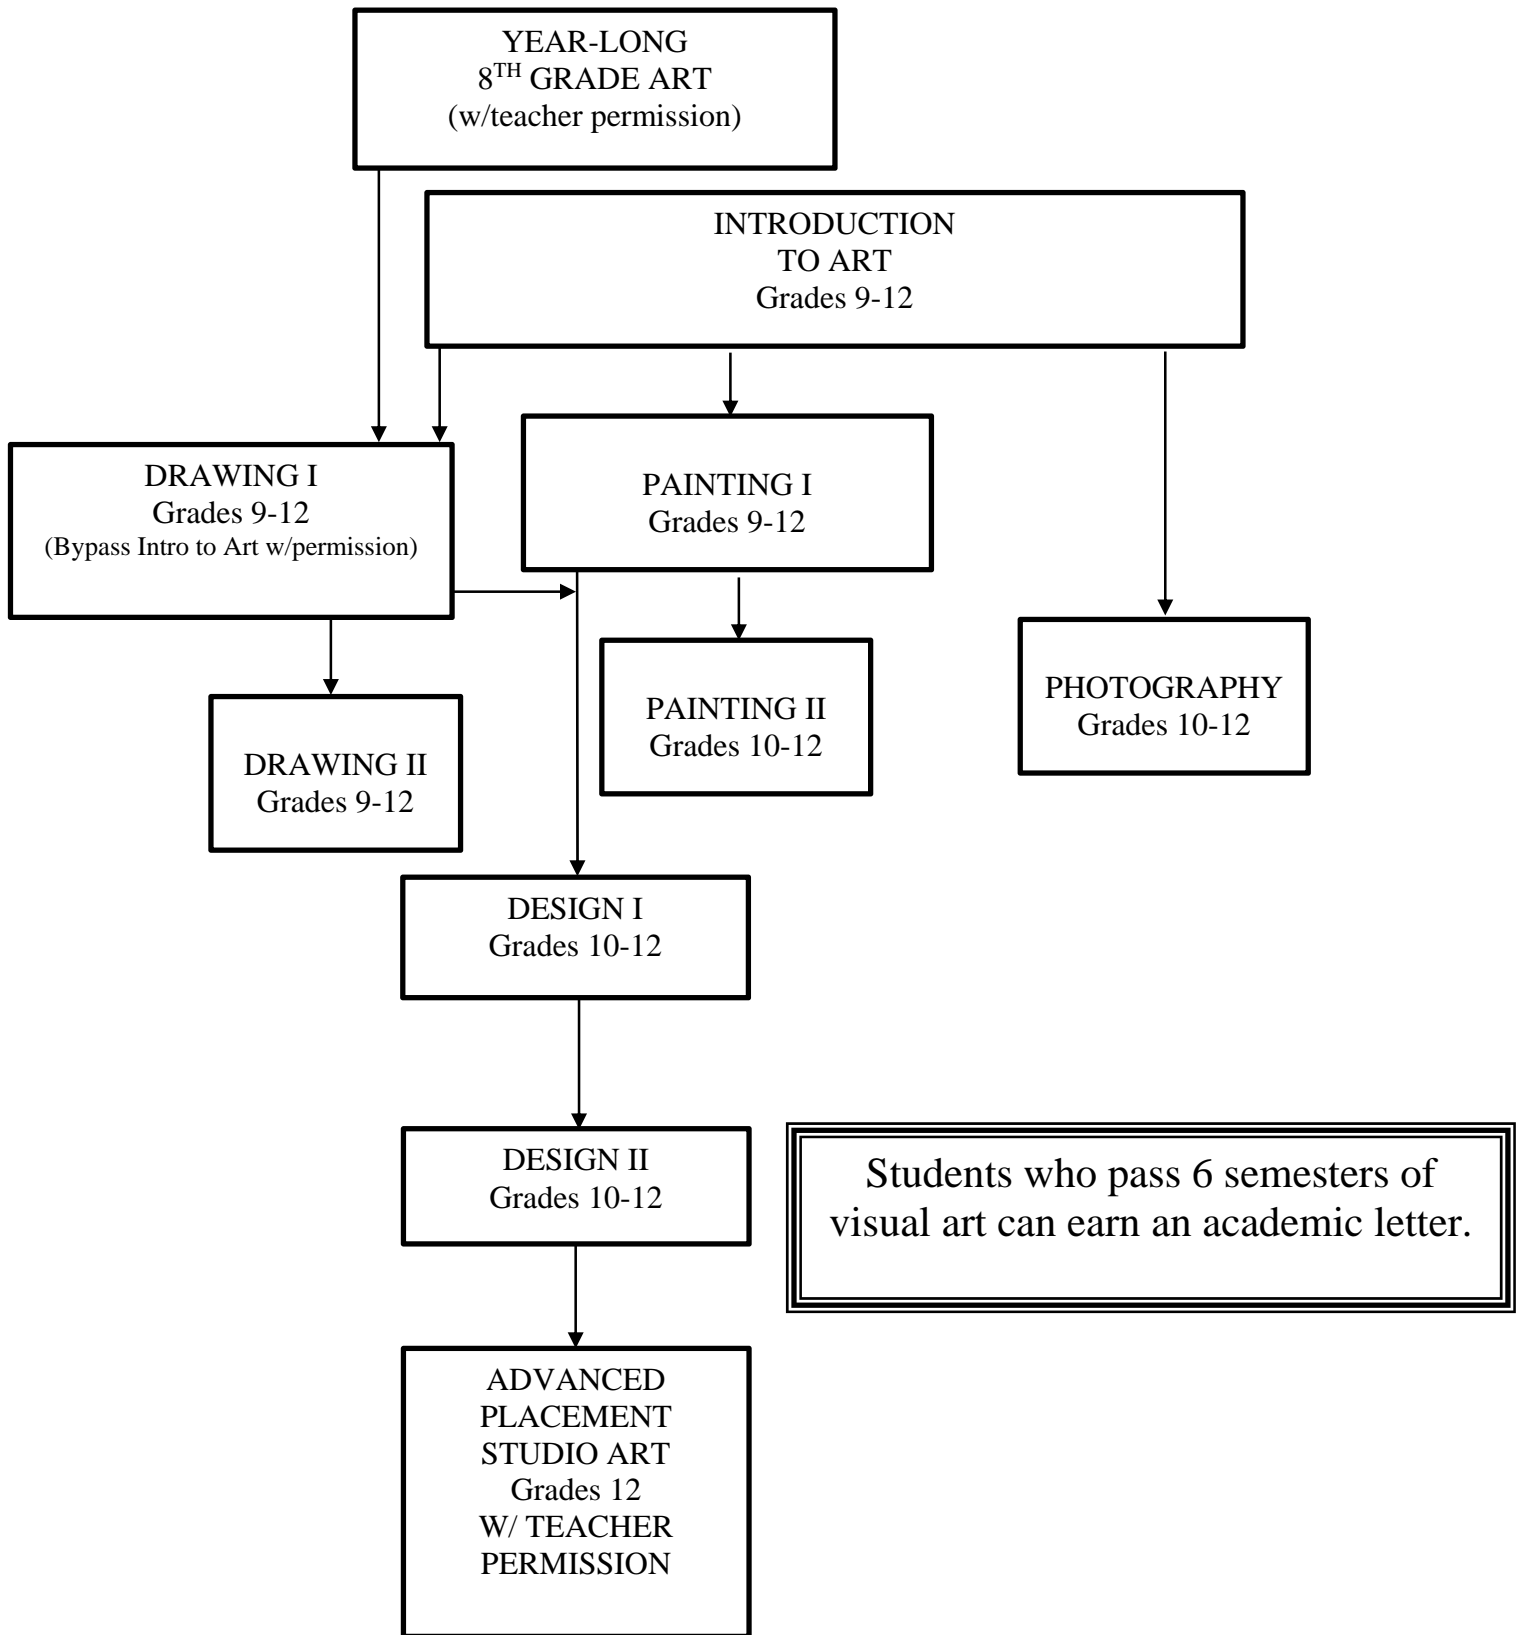

This course is designed to allow students who attend EHOVE, or other special circumstances, to still be a member of the FFA as well as continue their agricultural education. Students enrolled in the Independent Study course will be expected to keep records on their SAE's, participate in FFA activities and complete the curriculum provided by the instructor. In order to take this course, arrangements must be made by the beginning of the school year between the instructor, student and the student's parents pertaining to how often the student will need to check in with the instructor for work. Students in their junior year will be required to complete the curriculum from the Agricultural Business curriculum. Students in their senior year will be given the option to complete the curriculum of the Energy Systems Management course or the Mechanical Principles course.

Projects: Students will receive the matching projects of the curriculum that they enroll in.

Agriculture Education Courses Flow Chart

Art Courses Flow Chart

ART

INTRODUCTION TO ART (0111)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: None

Class Fee: Yes

Through the use of basic two-dimensional drawing and various media, this beginner course introduces learners to the elements of line, shape, value, color, texture and form, while emphasizing technical skill through a variety of media. This course will serve as the basis for further art study. A sketchbook is required.

DRAWING I (0113)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: Introduction to Art

Class Fee: Yes

Students will learn to create images in an expressive, technically appropriate manner to communicate to the viewer. Students will work from observation, imagination and reference using various drawing techniques and media. A sketchbook is required.

DRAWING II (0114)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: Drawing I

Class Fee: Yes

This course will take advanced learners beyond basic drawing media and techniques and continue to build skills learned in Drawing I. Many subject matters will be explored such as, but not limited to, still-life, landscape and portraiture. A sketchbook is required.

PAINTING I (0115)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: Introduction to Art or Drawing I

Class Fee: Yes

Students will learn to create images in an expressive, technically appropriate manner to communicate to the viewer. Acrylic, tempera, watercolor and oil paint will be explored, while working from observation, imagination and references using various painting techniques and styles. A sketchbook is required.

PAINTING II (0106)

Semester, .5 Credit

Grades 10, 11, 12

Prerequisite: Painting I

Class Fee: Yes

Offered as a continuation of Painting I, interested learners will study advanced subject matter, techniques and concepts, including realistic and abstract styles. Time will be allowed for individual investigation in the painting media of student choice. A sketchbook is required.

DESIGN I (0118)

Semester, .5 Credit

Grades 10, 11, 12

Prerequisite: Painting I

Class Fee: Yes

Students will practice advanced skills and apply the elements of art and principles of design using a wide variety of media. This course will also introduce learners to techniques and materials used to create both two-dimensional and three-dimensional forms. A variety of projects will be explored. In this class students will be able to create forms with clay. A sketchbook is required.

DESIGN II (0121)
Semester, .5 Credit
Grades 10, 11, 12
Prerequisite: Design I
Class Fee: Yes

Learners will continue studying media and concepts learned in Design I. Students will also use a variety of other media while developing a personal visual concentration with their work. Learners will also continue to develop and refine skills and techniques with sculptural media in more advanced forms. Time will be allowed for individual investigation in the media/subject matter of the student's choice.

DIGITAL PHOTOGRAPHY (0123)
Semester, .5 Credit
Grades 9, 10, 11, 12
Prerequisite: Introduction to Art
Class Fee: No

Using digital cameras, students will learn an artistic approach to picture taking while studying the aesthetics of the elements of art and principles of design. Students will use Adobe Photo Shop to edit images. Students will learn how to take good photos. It is very helpful to have your own digital camera, but not required.

ADVANCED PLACEMENT STUDIO ART (0105)
Year, 1.0 Credit
Grade 12
Prerequisite: Design I and teacher permission
Class Fee: Yes

Studio art candidates may be seniors who exhibit responsibility, a strong work ethic, show initiative and are self-motivated. Required work should follow one of two AP Portfolios: Drawing Portfolio or 2-D Design Portfolio. See your school counselor for specific descriptions of each portfolio. Art history and art criticism may be required in addition to the production and organization of a portfolio containing three sections: Quality, Concentration and Breadth, which is approximately 29 finished pieces. A sketchbook is required for class. In May students are required to send their portfolio for national review per the Advanced Placement criteria for possible college credit. A fee is required.

BUSINESS

BUSINESS FOUNDATIONS (0202)
Year, 1.0 Credit
Prerequisite: None
Grades 9th, 10th, 11th, 12th
Class Fee: No

This is the first course for the Business and Administrative Services, Finance and Marketing career fields. It introduces students to specializations within the three career fields. Students will obtain knowledge and skills in fundamental business activities. They will acquire knowledge of business processes, economics and business relationships. Students will use technology to synthesize and share business information. Employability skills, leadership and communications and personal financial literacy will be addressed.

FUNDAMENTALS OF BUSINESS AND ADMINISTRATIVE SERVICES (0203)
Year, 1.0 Credit
Grades 10th, 11th, 12th
Prerequisite: Business Foundations
Class Fee: No

This is the first course specific to the Business and Administrative Services career field. It introduces students to the specializations offered in Business and Administrative Services. Students will obtain fundamental knowledge and skills in general management, human resources management, operations management, business informatics and office management. They will acquire knowledge of business operations, business relationships, resource management, process management and financial principles. Students will use technological tools and applications to develop business insights.

FINANCE FOUNDATIONS (0204)

Year, 1.0 Credit

Grades 11th, 12th

Prerequisites: Business Foundations and Fundamentals of Business and Administrative Services

Class Fee: Yes

This is the first course specific to Finance. It introduces students to the specializations offered in the career field. Students will obtain fundamental knowledge and skills in accounting, banking services, corporate finance, insurance and securities and investments. They will acquire knowledge of financial analysis and application, business law and ethics, economics, international business and business relationships. Knowledge management and information technology will be emphasized. Employability skills, leadership and communications will be incorporated in classroom activities.

MARKETING PRINCIPLES (0205)

Year, 1.0 Credit

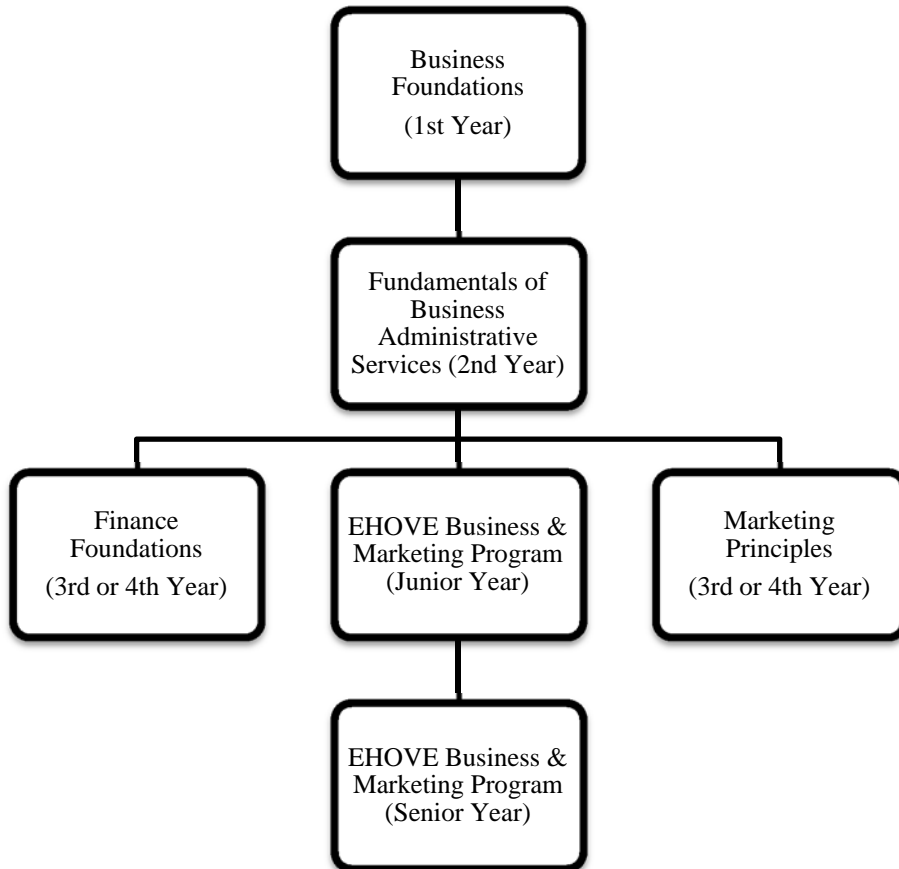

Grades 11th, 12th

Prerequisites: Business Foundations and Fundamentals of Business and Administrative Services

Class Fee: No

This is the first course in the Marketing career field. It introduces students to the specializations offered in Marketing. Students will obtain fundamental knowledge and skills in marketing communications, marketing management, marketing research, merchandising and professional selling. They will acquire knowledge of marketing strategies, market identification techniques, employability skills, business ethics and law, economic principles and international business. Technology, leadership and communications will be incorporated in classroom activities.

Business Courses Flow Chart

INFORMATION TECHNOLOGY

The world of business is being transformed. The Information Technology (IT) revolution needs a whole new generation of workers to sustain its growth. This program addresses the current commercial requirement for a workforce to be better prepared in the use of IT. This Information Technology program has been specifically designed to provide a structured approach to meeting the training needs of IT.

CHANNEL 22 NEWS (0607)

Year, 1.0 Credit

Grades 11, 12

Prerequisite: Application

Class Fee: No

Are you someone who wants to be in front of a camera? Do you want to learn professional presence as a news anchor or reporter? Do you want to learn how to run digital cameras and basic editing software? If so, Channel 22 News is for you. Students will use video cameras, digital cameras, green screen and video editing software to create daily news presentations.

VISUAL COMMUNICATIONS I (0040)

Grades 9, 10, 11, 12

Year, 1.0 Credit

Prerequisite: None

Class Fee: Yes

This class is an introductory course into the fields of Computer Graphics and Visual Communications. Students will create images that focus on each of the Elements of Art and the Principles of Design. Students will use two major software packages - Adobe Illustrator and Photoshop. Emphasis will be placed on the visual-problem solving process through the use of applications and equipment. Students will explore a fine art and commercial art approach to digital imagery. Students will apply their knowledge to the realizations of visual images through the use of digital cameras, scanners, drawing techniques and the internet, which will all be entered into the computer software programs. Student-directed as well as teacher-directed projects will be created.

VISUAL COMMUNICATIONS II (0041)

Grades 10, 11, 12

Year, 1.0 Credit

Prerequisite: Visual Communications I

Class Fee: Yes

This course will present students with an introduction to the skills and concepts used in digital video production. Students will be working with the software program Adobe Premiere Pro CS3. Students will use this program to develop and edit individual and group projects. Students will be exposed to digital cameras, digital video cameras, CD/DVD burner, flash drives, external hard drives, green screen, etc. Students will be designing, directing and producing videos that will demonstrate their expertise in digital video photography. In addition, students will be introduced to Dreamweaver CS3 and integrate their design skills into developing a web page. Using all of the hardware and software available throughout the district, students will be asked to create final projects that will showcase Bellevue Schools in a positive way.

FAMILY AND CONSUMER SCIENCES

The goal is to empower students to enhance their quality of life at home, community and place of employment by reasoning through problems, identifying personal and family values, obtaining adequate information for problem solving and critically evaluating alternative solutions and their consequences for self and others. By participating in FCCLA (Family, Career and Community Leaders of America), the student vocational organization members develop self-esteem, citizenship, leadership skills and provides opportunities for service to the community.

GLOBAL FOODS (0441)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: None

Class Fee: Yes

In this course, students will compare cuisines, ingredients and preferred cooking methods of various cultures. The influence of traditions and regional and cultural perspectives on food choices and culinary practices will be emphasized. Students will examine the issues and conditions that affect the availability and quality of food in the global market, and apply advanced cooking techniques, including the use of specialty and advanced equipment in the preparation of food dishes.

NUTRITION AND WELLNESS (0431)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: None

Class Fee: Yes

In this course, students will use principals of nutrition to ensure a healthy body throughout the lifecycle. An emphasis will be placed on planning and preparing meals with an understanding of nutrients and their benefits, portion control and dietary needs. Additional information will include steroid and supplemental use, body weight and management and the implementation of physical activity to maintain a healthy lifestyle.

CHILD DEVELOPMENT (0429)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: None

Class Fee: Yes

In this course, students will study the principles of child growth, development and behavior. An emphasis will be placed on the cognitive development of a child and sensory and motor skills. Additional topics will include childhood diseases, immunizations, theories of development, learning styles and evaluating childcare services.

LEADERSHIP AND COMMUNITY ENGAGEMENT (0450)

Year, 1.0 Credit

Grades 12

Prerequisite: Application

Class Fee: No

In this course, students will learn how to become an active community member and citizen. An emphasis will be placed on in-service learning, leadership training and teambuilding opportunities. Additional topics will include public policy issues, community and global engagement.

CAREER AND COLLEGE READINESS (0425)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: None

Class Fee: No

In this course, students will develop effective learning strategies and skills to provide a strong foundation for successful lifelong learning. Throughout the course, students will research careers and occupations, review post-secondary admissions qualifications, develop interviewing skills and participate in internships. Additional topics will include principles and techniques of professionalism, networking, conflict-resolution, negotiation, leadership and entrepreneurship.

HEALTH & PHYSICAL EDUCATION

***HEALTH (0001)**

Semester, .5 Credit

Grade 9

Prerequisite: None

Class Fee: No

***Required for Graduation**

A progressive course in personal and community health with a focus on the ability to make reasonable and informed choices. The course includes a strong emphasis on sexually transmitted infections, illegal substances, body systems, nutrition and current events. The purpose of this course is to increase health literacy and provide life-long health skills.

***PHYSICAL EDUCATION I (0002)**

Semester, .25 Credit

Grade 9

Prerequisite: None

Class Fee: No

***Required for Graduation**

A planned program of basic individual and team activities designed to improve the skills, fitness level and game knowledge.

***PHYSICAL EDUCATION II (0003)**

Semester, .25 Credit

Grade 10

Prerequisite: Physical Education I

Class Fee: No

***Required for Graduation**

A planned course in physical education with emphasis placed on gaining advanced skills and knowledge in individual and team activities, lifetime fitness and leisure time activities.

FITNESS & WELLNESS (0017)

Semester, .5 Credit

Grade 11, 12

Prerequisite: Teacher Permission

Class Fee: No

This course is designed to help students get and stay fit. Students will be exposed to the benefits of life-long physical activity. Personal fitness, nutrition, healthy body composition, flexibility and muscular fitness are among the topics explored.

ENGLISH/LANGUAGE ARTS

ENGLISH I (0601)

Year, .5 Credit per Semester = 1.0 Credit

Grades 9

Prerequisite: None

Class Fee: Yes

English I is the study of literature and basic grammar. The literature segment includes the reading and evaluation of fiction and nonfiction texts. Emphasis is placed on the understanding of common literary terms and personal interpretation of literary styles. A general review of authors is included. The basic grammar segment covers vocabulary usage, the parts of speech, punctuation rules, sentence structure and the proper use of grammar in writing. Basic grammar rules will be stressed in an assigned research report. At the completion of the literature and grammar units, oral speaking skills and listening skills may be studied. Students will be required to purchase a workbook and paperback novels.

ACCELERATED ENGLISH I (0611)

Year, .5 Credit per Semester = 1.0 Credit

Grade 9

Prerequisite: Teacher recommendation, application, attendance, previous English grades and writing samples may be also considered

Class Fee: Yes

The Accelerated English I course will include the study and review of grammar skills and literature. The literature segment includes the reading and evaluation of fiction and nonfiction texts. Additional focus will be placed on developing strong writing skills and the writing process including essays, creative writing and research writing. Oral speaking and communicating skills will be studied. Reading and writing will be extensive in this course. Students wishing to enroll in this course should be self-motivated and eager to learn and expand their knowledge and understanding of literature and the English language. Students will be required to purchase a workbook and paperback novels. **A summer reading and writing assignment is required.**

ENGLISH II (0602)**Year, .5 Credit per Semester = 1.0 Credit****Grades 10****Prerequisite: English I****Class Fee: Yes**

English II is the comprehensive study of forms of literature and English grammar. The literature segment includes the reading and evaluation of fiction and nonfiction texts. The emphasis of the grammar study is placed on parts of speech, phrases and clauses and acceptable usage. The course also includes writing and paragraph construction and vocabulary. Writing will include essays and a research paper. Students will be required to purchase novels.

ACCELERATED ENGLISH II (0612)**Year, .5 Credits per Semester = 1.0 Credit****Grade 10****Prerequisite: English I, recommendation by English I instructor, attendance, previous English grades and writing samples may also be considered****Class Fee: Yes**

Accelerated English II is for the highly motivated student who is eager to learn and expand his/her knowledge and understanding of literature and the English language. After a review of grammar skills and the writing process, students will acquire new skills to help them prepare many different types of writing including a full research paper. Students will also be required to give several presentations. The literature segment includes the reading and evaluation of fiction and nonfiction texts. Vocabulary study will be ongoing throughout the year. Students will purchase a vocabulary workbook and paperback novels. **A summer reading and writing assignment is required.**

ENGLISH III (0603)**Year, .5 Credit per Semester = 1.0 Credit****Grade 11****Prerequisite: English II****Class Fee: Yes**

The class will include a review of grammar usage, mechanics, vocabulary study and composition. A major research paper will also be completed. Various works of classic and modern fiction and nonfiction texts will be studied. Also included will be a Shakespeare play. Class novels will be required reading. Students will purchase paperback novels.

ENGLISH IV (0604)**Year, .5 Credit per Semester = 1.0 Credit****Grade 12****Prerequisite: English III****Class Fee: Yes**

English IV will include a review of grammar and mechanics. Vocabulary development, reading, writing conventions, communication and comprehension skills will be a focus of this course. Students will read and analyze various pieces of literature, including fiction and nonfiction texts. A research paper will be assigned. Students will purchase novels.

COLLEGE CREDIT PLUS ENGLISH I (0620) (formerly dual-credit)**Year, 1.5 Credits (.5 credit 1st Semester, 1.0 credit 2nd Semester)****Grades 11, 12****Prerequisite: BGSU College Readiness Placement Test****Class Fee: Yes**

This is a college-level course that introduces students to various academic writing conventions. Students are introduced to the important skills entailed in prewriting, drafting and revising. Students will evaluate written text and also write papers that argue a position and persuade. Students who attend the mandatory CCP meeting, complete the necessary paperwork by the deadlines, successfully complete the placement test and course requirements will earn three college credits from Bowling Green State University in GSW 1110 – Introduction to Academic Writing. These college credits will transfer seamlessly to any Ohio Public College/University and most Ohio private institutions. In addition to writing, students will also review grammar. Vocabulary development, reading, communication and comprehension skills will also be a focus of this course. Students will read and analyze various pieces of literature. Students will purchase novels.

COLLEGE CREDIT PLUS ENGLISH II (0621) (formerly dual-credit)

Year, 1.5 Credits (.5 credit 1st Semester, 1.0 credit 2nd Semester)

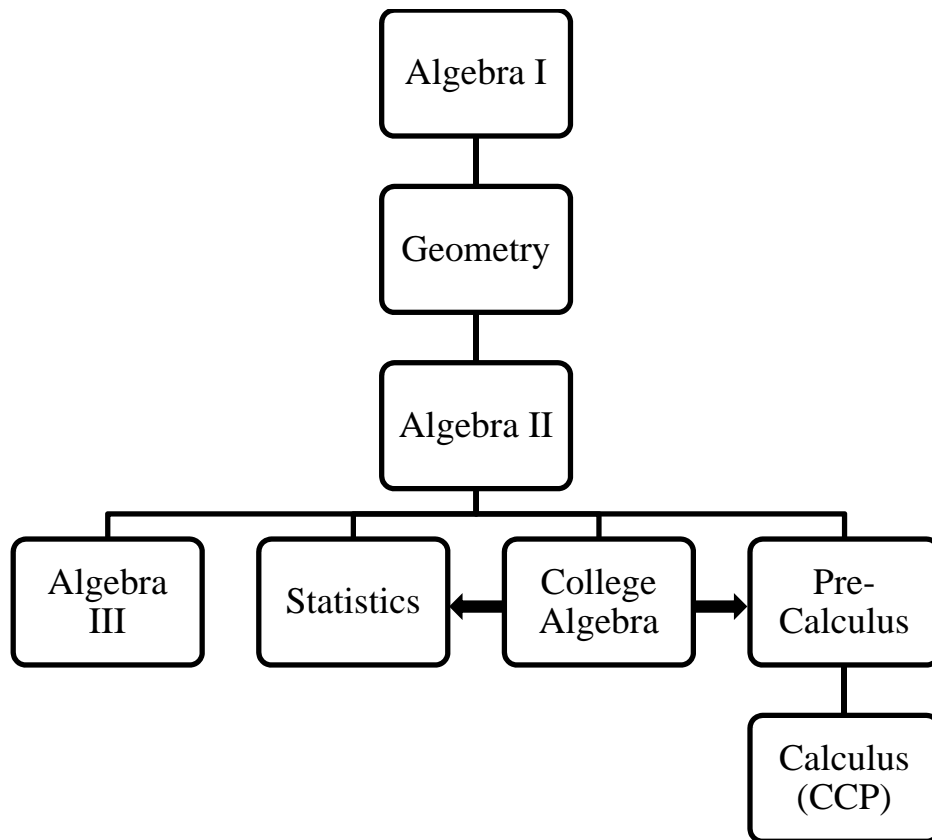

Grades 11, 12

Prerequisite: CCP English I (GSW 1110)

Class Fee: Yes

In this course, the focus is on three varieties of writing that are prominent in academic settings: the critique, the multiple source synthesis essays and the synthesized, researched essay. The emphasis in GSW 1120 is on developing critical and analytical skills in reading, thinking, and writing. Students need to have successfully completed GSW 1110 - Introduction to Writing as a prerequisite for this course. Students who attend the mandatory CCP meeting, complete the necessary paperwork by the deadlines, successfully complete the placement test and course requirements will earn three college credits from Bowling Green State University in GSW 1120 - Varieties of Writing. These college credits will transfer seamlessly to any Ohio Public College/University and most Ohio private institutions. In addition to writing, students will also review grammar, vocabulary development, reading comprehension, and communication skills. Students will read and analyze various pieces of literature. Students will purchase novels.

MATH COURSES FLOW CHART

MATHEMATICS

ALGEBRA I (0701)

Year, 1.0 Credit

Grade 9

Prerequisite: None

Class Fee: Yes

This course involves an extensive study of equations, real-world problems, relations, graphing, formulas, etc. A good knowledge of basic mathematics is required in order for the student to keep up with the pace of the class. Graphing calculators will be used to examine and explore graphs.

ALGEBRA II (0702)**Year, 1.0 Credit****Grades 11, 12****Prerequisite: None****Class Fee: Yes**

This course begins with a review of basic material from Algebra I. It includes the study of linear and quadratic equations and inequalities, linear functions, systems of linear equations, polynomials and rational algebraic expressions, irrational numbers and the applications of these concepts to real-life situations.

ACCELERATED ALGEBRA II (0711)**Year, 1.0 Credit****Grade 10****Prerequisite: C or higher in Acc. Geometry or teacher recommendation****Class Fee: Yes**

This course includes the study of linear and quadratic equations and inequalities, linear functions, systems of linear equations, polynomials and rational algebraic expressions, irrational numbers and the applications of these concepts to real-life situations. Content will be covered more in-depth and at a faster pace than the usual Algebra II courses. Students taking this course will be expected to take Calculus before graduation.

GEOMETRY (0703)**Year, 1.0 Credit****Grades 10, 11****Prerequisite: Algebra I****Class Fee: Yes**

This course will provide students with the opportunity to learn about the Mathematics of shapes, size, volume and area. Content includes materials from plane and solid geometry. Principles involving triangles, polygons and coordinate geometry are studied. Patterns in concepts are emphasized throughout the course.

ACCELERATED GEOMETRY (0710)**Year, 1.0 Credit****Grade 9****Prerequisite: B or higher in Algebra I in 8th Grade (high school credit)****Class Fee: Yes**

This course is designed to provide students with the opportunity to learn about the mathematics of shapes, size, volume and area at an accelerated pace. Content will be covered more in depth and includes materials from plane and solid geometry and trigonometry. Principles involving triangles, polygons and coordinate geometry are studied. Patterns in concepts are emphasized throughout the course.

ALGEBRA III (0705)**Year, 1.0 Credit****Grade 12****Prerequisite: Algebra II****Class Fee: No**

This course is designed for seniors who are looking to continue their development of important mathematical concepts. Emphasis of study will include further study of algebraic concepts including solving linear and quadratic functions and their applications and graphs. Other topics of study will include selections from number systems, exponents, roots, logarithms, vectors, matrices, statistics and trigonometric functions.

COLLEGE ALGEBRA (0715)**Year, 1.0 Credit****Grade 11, 12****Prerequisite: C or higher in Algebra II****Class Fee: No**

This course is designed for seniors who will be pursuing non-mathematical majors in their college education. Emphasis of study will include in depth study of algebraic concepts including solving linear and quadratic functions and their applications and graphs. Other topics of study will include selections from number systems, exponents, roots, logarithms, vectors, matrices, statistics and trigonometric functions.

STATISTICS (0716)**Year, 1.0 Credit****Grade 12****Prerequisite: Algebra II****Class Fee: No**

The purpose of this course is to introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. This course is recommended for students who plan to pursue post-secondary options in the areas of engineering, psychology, sociology, the health sciences, business or related fields. It is a course that supplements and enhances the topics found in previous high school math courses.

PRE-CALCULUS (0712)**Year, 1.0 Credit****Grades 11, 12****Prerequisite: Teacher Recommendation****Class Fee: No**

This course is offered for only those students who have already completed Geometry and Algebra II with no grade lower than B+ in either subject. Topics will be covered at an accelerated rate. The course follows the accelerated grade point system. There will be concentration on the following topics: algebraic functions and their graphs, trigonometric functions and their applications, analytic geometry and additional topics necessary to prepare students for success in an Advanced Placement Calculus course. Students will learn the use of the programmable graphing calculator. It will be necessary for each student to purchase a Texas Instrument TI-83+ calculator.

CALCULUS (0713) – College Credit Plus (formerly dual-credit)**Year, 2.0 Credits (1.0 credit each semester)****Grade 12****Prerequisite: Pre-Calculus and BGSU College Readiness Placement Test****Class Fee: No**

This course is a thorough study of functions, limits, derivatives, integration, transcendental functions, polar coordinates and differential equations including applications of these topics. It will be taught and conducted on a college level following the syllabus for Calculus and Analytic Geometry. Students who attend the mandatory CCP meeting, complete the necessary paperwork by the deadlines, successfully complete the placement test and course requirements will earn three college credits from Bowling Green State University in MATH 1340 and MATH 1350 - Calculus and Analytic Geometry IA and IB. Both courses are three college credits (six total college credit hours) and will transfer seamlessly to any Ohio Public College/University and most Ohio private institutions. Each student must have a TI-83+ graphing calculator. Strong self-motivation will be needed in order to succeed in this class.

INSTRUMENTAL MUSIC

All BHS band members perform at every football game as well as several concerts throughout the year. Students involved in the BHS Instrumental Music program also have the opportunity to participate in Pep Band (plays at all home boys basketball games), Jazz Band (various performances throughout the year) and will be afforded opportunities to participate in OMEA sanctioned events, including Solo & Ensemble Contest, District Honors Band and Large Group District and State Events.

BAND (0010)**Year, 1.0 Credit****Grades 9, 10, 11, 12****Prerequisite: Audition, previous musical experience on a band instrument and middle school band****Class Fee: Yes****MARCHING BAND**

Membership includes all students enrolled for band. Rehearsals (band camp) begin two or three weeks prior to the opening of school (percussion three weeks before, all other band members two weeks before). Band camp is held from 8 a.m. to noon Monday through Friday. During the school year, the marching band rehearses during the school day. Marching Band performs at all football games and pep assemblies. It also participates in the Halloween, Christmas and Memorial Day parades and usually one marching band festival per year (held on a Saturday in the fall). Attendance is required at band camp, all rehearsals and performances. JV/Varsity football players are excused from marching during the football season.

WIND ENSEMBLE

Membership in Wind Ensemble includes those students selected from chair placement auditions, which are held during the last two weeks of the football season. This band meets on a daily basis during 5th period after the marching band season has ended. The Wind Ensemble participates in District II OMEA Large Group Adjudicated events. Attendance is required at all performances.

CONCERT BAND

Membership in Concert Band includes those students selected from chair placement auditions, which are held during the last two weeks of the football season. This band meets on a daily basis during 5th period after the marching band season has ended. Attendance is required at all performances.

BAND SECTIONAL (00151) (00152)**Semester, .25 credit****Grades 9, 10, 11, 12****Prerequisite: Band Member****Class Fee: No**

A band sectional is strongly encouraged of all band students for each semester, as their schedule allows. The sectional time will consist of small ensemble rehearsals, sight reading, nine-week's music check-off and individual and small-group lessons. Instrumental music theory will also be included. Rhythmic dictation, interval recognition, by both sight and ear and musical vocabulary used in every day instrumental music rehearsals will be included. One quarter credit per semester will be issued.

INTRODUCTION TO HAND CHIMES (0005)**Year, 1.0 Credit****Grades 9, 10, 11, 12****Prerequisite: None****Class Fee: Yes**

This course is designed for the student with little or no hand chime or hand bell experience. Students will learn proper ringing technique in exercises and repertoire. Skill areas of instruction include, but are not limited to, rhythm, meter, melody, harmony, tonality, score reading and notation. Attendance is required at all rehearsals and performances.

HAND CHIMES (0006)**Year, 1.0 Credit****Grades 9, 10, 11, 12****Prerequisite: Intro to Hand Chimes Class or Director's discretion****Class Fee: Yes**

This course is designed for the student with hand chime or hand bell experience and would like to continue to hone their skills. Students will learn advanced ringing technique through exercises and repertoire. Skill areas of instruction include, but are not limited to rhythm, meter, melody, harmony, tonality, score reading and notation. Attendance is required at all rehearsals and performances.

MUSIC

MUSIC HISTORY (0023)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: None

Class Fee: No

This class is offered to students who are seeking a fine arts credit but do not wish to participate in a performance-based class. The history of music, classical composers and how this impacts present-day music will be examined. Students will participate in individual assignments, writing, watching, listening, analyzing and expressing opinions through class discussion. Grades are earned through homework, projects, class discussions, tests, quizzes and exams.

MODERN MUSIC APPRECIATION (0024)

Semester, .5 Credit

Grades 9, 10, 11, 12

Prerequisite: None

Class Fee: No

This class is offered to students who are seeking a fine arts credit but do not wish to participate in a performance-based class. Popular music throughout the 20th & 21st century, the music industry and the effect of music on society will be examined. Students will participate in individual assignments, writing, watching, listening, analyzing and expressing opinions through class discussion. Grades are earned through homework, projects, class discussions, tests, quizzes and exams.

VOCAL MUSIC

All BHS choirs perform several concerts throughout the year. Students involved in the BHS Vocal Music program will be afforded opportunities to participate in OMEA sanctioned events, including Solo & Ensemble Contest and Large Group District and State Events.

MEN'S CHORUS (0011)

Year, 1.0 Credit

Grades 9, 10, 11, 12

Prerequisite: Admission through audition and permission of instructor

Class Fee: Yes

This choir meets daily and will perform approximately four times per year. This choir sings choral literature representative of all periods of music including classical, show tunes and popular music. Much time is devoted to correct vocal production and reading music. **Attendance is required at all performances.**

WOMEN'S CHORUS (0009)

Year, 1.0 Credit

Grades 9, 10, 11, 12

Prerequisite: Admission through audition and permission of instructor

Class Fee: Yes

This choir meets daily and will perform approximately four times per year. This choir sings choral literature representative of all periods of music including classical, show tunes and popular music. Much time is devoted to correct vocal production and reading music. **Attendance is required at all performances.**

SYMPHONIC CHOIR (0020)

Year, 1.0 Credit

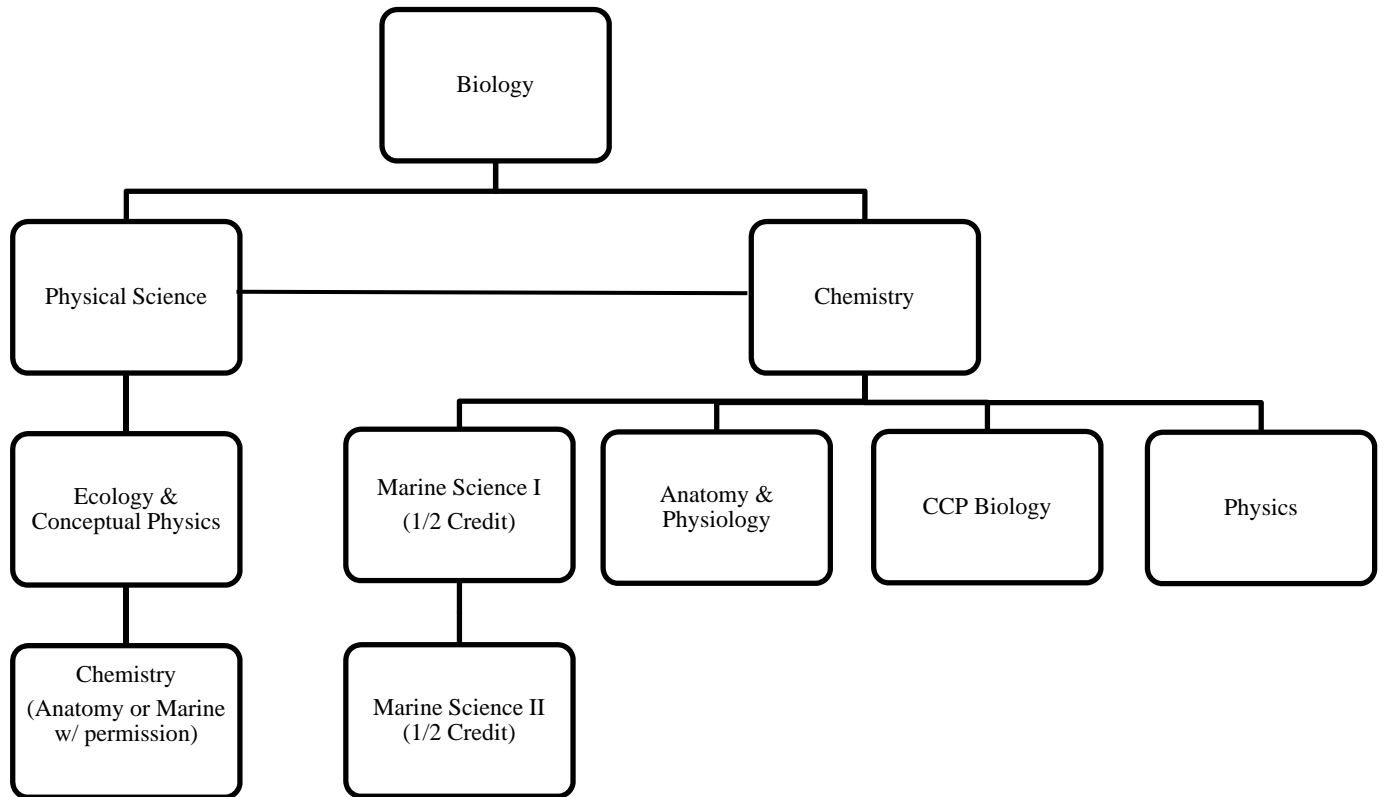

Grades 9, 10, 11, 12

Prerequisite: Admission by audition and permission of the instructor

Class Fee: Yes

The Symphonic Choir sings many different styles of music in many different concert settings. This choir meets daily and performs between five and eight times per year. **Attendance is required at all performances.**

SCIENCE COURSES FLOW CHART

SCIENCE

BIOLOGY (0802)

Year, 1.0 Credit

Grade 9

Prerequisite: None

Class Fee: Yes

The student will be exploring concepts of cell structure, biochemistry, energy cycles like photosynthesis and cellular respiration, genetics, protein synthesis, ecosystems, ecology and interactions between organisms and their environment, evolution and the five kingdoms. Whenever possible the concepts entailed are supported by laboratory work including extensive work with a microscope, investigations and dissections.

PHYSICAL SCIENCE (0801)

Year, 1.0 Credit

Grade 10

Prerequisite: Biology

Class Fee: Yes

This course is an introductory course designed to allow students to explore the basic concepts of physical science. Students will be introduced to the history and nature of science. The course includes an introduction to the fundamental concepts of elements, balancing chemical equations, bonds, reactions, forces, waves, laws of motion and energy transformations. Students will be encouraged to explore the relationship between science and everyday life.

CHEMISTRY (0803)**Year, 1.0 Credit****Grades 10, 11, 12****Prerequisite: Biology and Algebra I****Class Fee: Yes**

This is a laboratory course that includes a descriptive study of the structure and composition of matter. Major areas of study in chemistry include; matter and change, measurements and calculation, the structure of the atom, the arrangement of electrons in an atom, the periodic law, chemical formulas and compounds, chemical equations and reactions and stoichiometry.

ACCELERATED CHEMISTRY (0807)**Year, 1.0 Credit****Grades 10, 11, 12****Prerequisite: B or higher in Biology and Algebra I****Class Fee: Yes**

This is a laboratory course that includes an in-depth study of the structure and composition of matter. Major areas of study in accelerated chemistry include; matter and change, measurements and calculation, the structure of the atom, the arrangement of electrons in an atom, the periodic law, chemical formulas and compounds, chemical equations and reactions and stoichiometry. Other areas that will be studied include; acids and bases, titration, oxidation-reduction reactions and organic chemistry.

ECOLOGY & CONCEPTUAL PHYSICS (0806/0805)**Year, 1.0 Credit (.5 Credit/Semester)****Grade 11****Prerequisite: Physical Science & Biology****Class Fee: No**

Ecology is the scientific study of interactions among organisms and their environment. This course enables students to develop an understanding of the natural and man-made environment and the environmental problems the world faces. Through an inquiry-based approach students will explore ecological concepts including; individuals, populations, communities, ecosystems, biomes, humans and sustainability.

Physics is the most fundamental of all of the sciences and is essential for an understanding of how the universe works. Conceptual physics will allow students to discover how things work while focusing on topics associated with linear motion, energy, waves, light and sound. This hands-on course will require the use of basic algebraic skills.

ANATOMY AND PHYSIOLOGY (0809)**Year, 1.0 Credit****Grades 11, 12****Prerequisite: B+ in Biology and/or C in Chemistry****Class Fee: Yes**

Anatomy and Physiology is a course designed to benefit a student pursuing a career in nursing, mortuary school, or any career in the medical field. Students will be studying the fundamentals of the human body and covering in detail the nervous, digestive, respiratory, circulatory and skeletal systems, along with viewing tissue slides and a chapter on blood. Dissection of the cat allows students to relate the anatomy of the human body systems to the physiology learned. Dissection is a mandatory part of students' grade. Students will also study disorders of the above systems and learn common prefixes and suffixes used in the medical field.

COLLEGE CREDIT PLUS BIOLOGY (0820)**Year, 1.0 Credit****Grades 11, 12****Prerequisite: Freshmen-Level Biology****Class Fee: No**

Introduction to Biology, an introductory lab course, will provide students the opportunity to further develop and practice critical thinking skills in the area of biology, a field that permeates every aspect of our daily lives. The course will focus on analyzing and investigating biological processes related to biochemistry, cellular and molecular biology, genetics, evolution and ecology. Students who successfully complete the placement test and course requirements will earn three college credits from Bowling Green State University in BIOL 1040 – Introduction to Biology. These college credits will transfer seamlessly to any Ohio Public College/University and most Ohio private institutions.

PHYSICS (0804)

Year, 1.0 Credit

Grades 11, 12

Prerequisite: Algebra II and Chemistry

Class Fee: Yes

Physics is the most fundamental of all the sciences and essential for a good understanding of how the universe works. This course is taught from a mathematical and conceptual view. Students will learn answers to many of their questions about how things work. Topics include; motion, energy, waves, heat, light and sound. This is a laboratory science. The course includes hands-on labs/activities and an optional physics-related field trip to Cedar Point.

MARINE SCIENCE I (0811)

Semester, .5 Credit

Grades 11, 12

Prerequisite: Chemistry or Teacher and School Counselor Recommendation

Class Fee: No

Marine Science I is an introduction to the marine sciences. Students will study ancient sailing cultures as well as modern uses of the seas. The course uses both an ecological and a taxonomic approach to guiding students through classroom and laboratory explorations of micro and macro-algae, planktonic communities, sponges and primitive worms.

MARINE SCIENCE II (0815)

Semester, .5 Credit

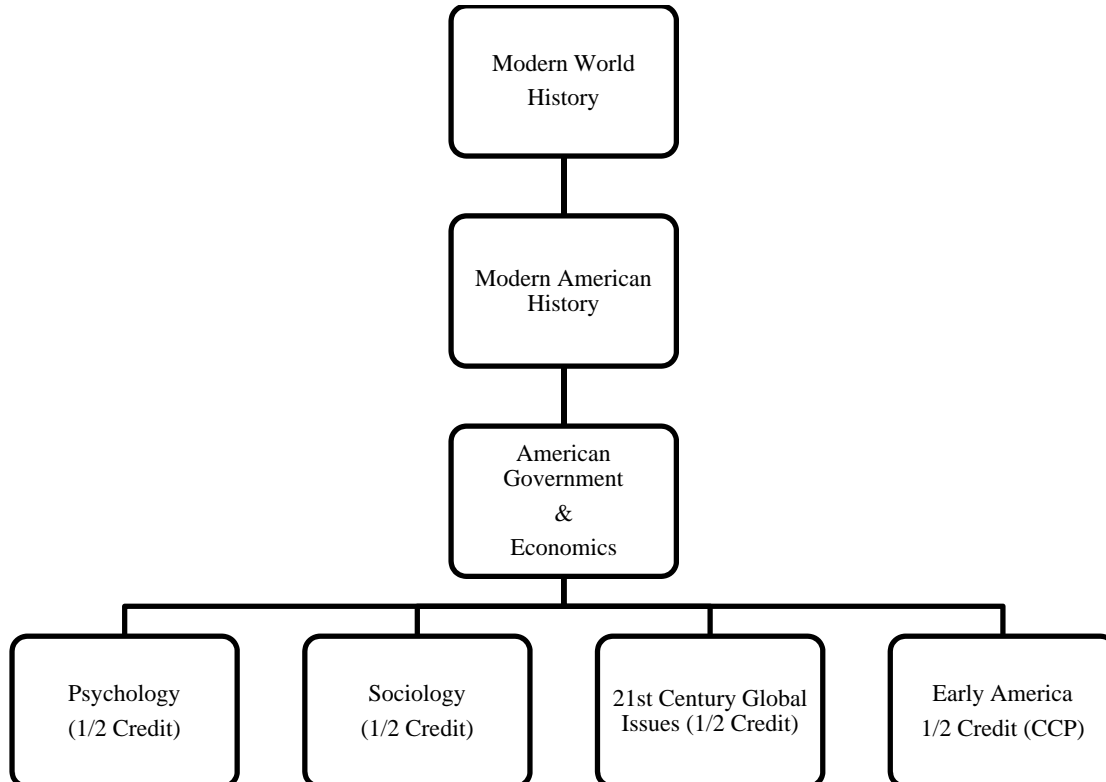

Grades 11, 12

Prerequisite: Chemistry or Teacher and School Counselor Recommendation

Class Fee: No

Although Marine Science II does not require Marine Science I, it is highly recommended. Marine Science II uses both taxonomic and ecological approaches to introduce students to the major marine environments including; mangrove forests, grasses, coral reefs, pelagic and abyssal environments. Taxonomic studies are conducted on corals and higher order animals.

SOCIAL STUDIES COURSES FLOW CHART

SOCIAL STUDIES

MODERN WORLD HISTORY (0910)

Year, 1.0 Credit

Grade 9

Prerequisite: None

Class Fee: No

The purpose of this course is to provide an overview of world history from 1750 to the present day. The course will also focus on economics, government, culture and geography. Additional focus will be placed on improving social studies skills including reading and writing.

ACCELERATED MODERN WORLD HISTORY (0900)

Year, 1.0 Credit

Grades 9

Prerequisite: Teacher recommendation, application and good attendance record

Class Fee: Yes

The purpose of this course is to build a comprehensive base of world history knowledge focusing on the events of the enlightenment to the present day. The course will focus on events outside the United States including but not limited to; The French Revolution, Imperialism, World War I, World War II and the Cold War. Students will be expected to use their writing, reading and creative thinking skills to prepare themselves for more demanding courses later in their academic careers.

MODERN AMERICAN HISTORY (0903)

Year, 1.0 Credit

Grade 10

Prerequisite: None

Class Fee: No

This is a survey course on the development of the United States from the Civil War period through present day. This class gives the student a broad overview of the people, events and institutions that have shaped American history.

ACCELERATED MODERN AMERICAN HISTORY (0915) - College Credit Plus (formerly dual-credit)

Year, 1.5 Credits (.5 credit 1st Semester, 1.0 credit 2nd Semester)

Grade 10

Prerequisite: B or better in Modern World History and BGSU College Readiness Placement Test

Class Fee: Yes

This course is a college-level survey that introduces the students to key events and trends in American history. It also develops the student's ability to think historically, read critically and write effective essays. There will be regular writing assignments. Students are expected to complete a mid-term exam and a final examination as well as a substantial paper based upon primary and secondary research. Students who attend the mandatory CCP meeting, complete the necessary paperwork by the deadlines, successfully complete the placement test and course requirements will earn three college credits from Bowling Green State University in HIST 2060 – Modern America. These college credits will transfer seamlessly to any Ohio Public College/University and most Ohio private institutions.

AMERICAN GOVERNMENT & ECONOMICS (0909)

Year, 1.0 Credit

Grade 11

Prerequisite: None

Class Fee: No

The course starts with the development of American Government by looking at the origins of our system; a broad overview of the Constitution in its written form, along with an in-depth analysis of our federal system, finish the course introduction. The middle portion of the course examines the legislative, executive and judicial branches. In examining the legislative branch, special attention is paid to the organization of Congress and the development of Congressional power. Themes explored with regard to the executive branch include the power of the Presidency and Presidential leadership. The judicial branch is discussed by looking at the nature of the federal court system along with the scope and power of the Supreme Court. The role and history of political parties will also be explored; analyzing how elections and voting works round out the course. Economics will be integrated into the study of this course and cover basic fundamentals of the American Economic System, including but not limited to; the study of production, distribution, consumerism, banking, business cycles and international economics.

21st CENTURY GLOBAL ISSUES (0911)**Semester, .5 Credit****Grade 11, 12****Prerequisite: American History****Class Fee: No**

This course will introduce students to contemporary issues facing humankind in the 21st Century. The primary focus of the course will be on the global content with particular interest in areas such as; international conflict and security, the global economy and development, the environment, immigration, human rights and gender and family issues.

PSYCHOLOGY (0905)**Semester, .5 Credit****Grade 11, 12****Prerequisite: American History****Class Fee: No**

This is an introductory survey course in human behavior. Topics covered include nervous system structure and function, attention, perception, learning, thinking, dreaming, sleeping, extrasensory perception, hypnosis, motivation, personality, intelligence and mental disorders. Much time is devoted to experimental research through the students in the classroom.

SOCIOLOGY (0906)**Semester, .5 Credit****Grade 11, 12****Prerequisite: American History****Class Fee: No**

Sociology is the study of human society and culture. Topics included are; socialization, deviance, stratification, social groups and social institutions such as family, religion and education. A student taking this course should be self-motivated and responsible as the reading and writing requirements are on the pre-collegiate level.

EARLY AMERICAN HISTORY (0916) - College Credit Plus (formerly dual-credit)**Semester, 1.0 Credit****Grades 11, 12****Prerequisite: BGSU College Readiness Placement Test****Class Fee: No**

This is a college-level course that studies elected constitutional, intellectual, political and social developments that defined and shaped America between its first European settlement and the end of Reconstruction. Students who attend the mandatory CCP meeting, complete the necessary paperwork by the deadlines, successfully complete the placement test and course requirements will earn three college credits from Bowling Green State University in HIST 2050 – Early America. These college credits will transfer seamlessly to any Ohio Public College/University and most Ohio private institutions.

WORLD LANGUAGE**FRENCH I (0301)****Year, 1.0 Credit****Grades 9, 10, 11, 12****Prerequisite: None****Class Fee: Yes**

In French I, students will learn about the language and culture of France and the Francophone world. Incorporation of technology, written and audio activities, projects and interactive games are used to acquire vocabulary, basic grammar concepts and authentic dialogue. French food days occur once each semester along with other cultural experiences throughout the year.

FRENCH II (0302)**Year, 1.0 Credit****Grades 10, 11, 12****Prerequisite: C or higher in French I or teacher permission****Class Fee: Yes**

In French II, students will continue their acquisition of the French language and improve their cultural competency through thematic units. Instruction of the class is primarily in target language. Throughout the year, students will refine their speaking, reading, writing and listening skills by using the textbook series, T'es Braché's accompaniments, technology and realia.

FRENCH III (0303)

Year, 1.0 Credit

Grades 11, 12

Prerequisite: French II with required "C" average or teacher permission

Class Fee: Yes

French III provides students an opportunity to broaden their speaking, reading, writing and listening language abilities through the use of technology, authentic resources and group activities. Instruction of the class is primarily in the target language. Also included is an extensive unit on French Impressionism.

FRENCH IV (0304)

Year, 1.0 Credit

Grade 12

Prerequisite: French III with required "C" average or teacher permission

Class Fee: Yes

In French IV, students will continue to explore practical ways to use the French language as learned in French I, II, and III. The class is a continuation of language proficiency and cultural competence. Instruction of the class is primarily in the target language. Also included is an extensive unit on the History of France.

SPANISH I (0305)

Year, 1.0 Credit

Grades 9, 10, 11, 12

Prerequisite: None

Class Fee: Yes

In Spanish I, the student will learn about the language and culture of Hispanic countries. Listening, speaking and writing are introduced. An emphasis is placed on vocabulary. This course includes an introduction to verb tenses.

SPANISH II (0306)

Year, 1.0 Credit

Grades 10, 11, 12

Prerequisite: Spanish I with required "C" average or teacher permission

Class Fee: Yes

In Spanish II, the student continues to learn about the language and culture of Hispanic countries. Listening, speaking and writing skills are enhanced. An emphasis is placed on vocabulary, verb tenses and grammar.

SPANISH III (0307)

Year, 1.0 Credit

Grades 11, 12

Prerequisite: Spanish II with required "C" average or teacher permission

Class Fee: Yes

In Spanish III, the student continues to learn about the language and culture of Hispanic countries. An emphasis is placed on grammar, structure, and application of the language. Also included is a unit on famous Hispanic artists and a field trip as well.

SPANISH IV (0308)

Year, 1.0 Credit

Grade 12

Prerequisite: Spanish III with required "C" average or teacher permission

Class Fee: Yes

In Spanish IV, proficiency in speaking, writing, reading, and listening are emphasized. Further cultural appreciation is developed and a field trip is part of the class.

OTHER ELECTIVE COURSE OPTIONS

CERTIFIED PRODUCTION TECHNICIAN PLUS (CPT+) (0150)

Year, 1.0 Credit

Grade 12

Prerequisite: Teacher and School Counselor Recommendation

Class Fee: Yes

This course will introduce students to the manufacturing field by completing a self-driven curriculum. Students will examine and develop knowledge in measurements, hydraulics and pneumatics, plastic mold injecting, robotics, and electricity. Throughout the course, students will develop introductory skills needed to be successful in various fields of the manufacturing occupation.

CREDIT FLEXIBILITY

Credit flexibility applications must be turned in to your school counselor by May 1st of each year for the following school year. Please see your school counselor for additional information and an application.

Registration

Procedure

Bellevue High School Graduation Requirements

Below are the graduation requirements that all students must meet to graduate from Bellevue High School. In addition, students must successfully complete their grade-level testing requirements.

Subject	Graduation Requirements for All Students
English	4 credits
Mathematics	4 credits which includes Algebra II
Science	3 credits which includes a physical science and Biology
Social Studies	3 credits Modern World History 1 credit Modern American History 1 credit Government & Economics 1 credit
Health	½ credit
Physical Education	½ credit
Business and/or Technology	1 credit
*Fine Arts and/or World Language	1 credit
**Career and College Readiness	½ credit
Electives	5 ½ credits
Total Credits to Graduate	23

All students must complete at least two semesters of fine arts taken any time in grades 7-12

Students following a career-technical pathway are exempted from this requirement

To best prepare for post-high school education, students who attend BHS full-time (excludes EHOVE, Transformation Network, work-study programs) will be expected to take four core subjects (English, math, science, social studies) each year of their high school careers. In addition, students are strongly encouraged to take fine arts and world language course work. Examples of college-prep and career-tech options are listed below.

College-Preparatory Option

Drop/Add Policy

A student may drop or add a course from the start date of a class through the first five days of the class. **After this time period, a student may only drop a course with the permission of the building principal or school counselor.**

A STUDENT WHO DROPS A COURSE AFTER THE DROP DEADLINE WILL RECEIVE A WITHDRAW FAIL (WF) AND WILL NOT EARN ANY CREDIT FOR THE COURSE.

Grading & Point Scale

General Scale		
Grade	Point Range	Quality Scale
A+	100-98	4.00
A	97-93	3.85
A-	92	3.70
