

Dr. H. Philip Stahl

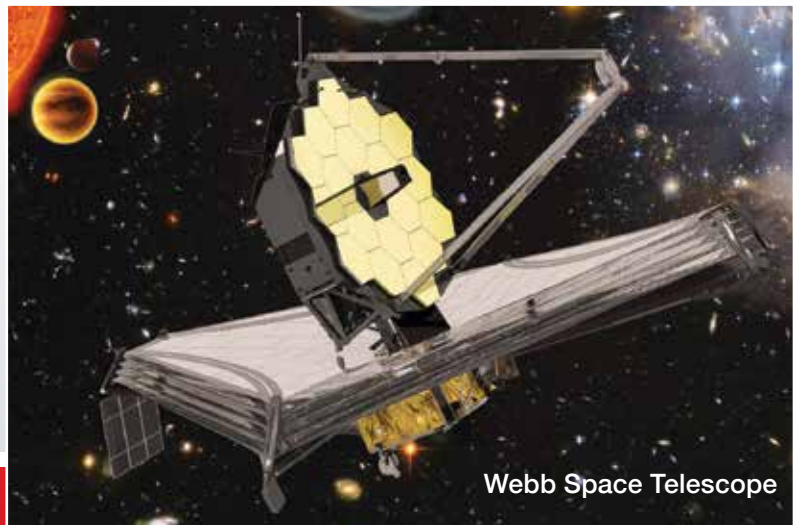

Want to know how NASA studies our universe's formation and searches for life on other planets?

Join the Bellevue Historical Society for a FREE presentation from NASA

Dr. H. Philip Stahl, a Bellevue High School graduate and senior optical physicist at NASA Marshall Space Flight Center, will share his cutting-edge work on the Webb Space Telescope, otherwise known as The First Light Machine.

This event is free and open to the public

Webb Space Telescope

**Sunday, May 15, 2 p.m.
Bellevue Elementary Cafetorium
1150 Castalia St.,
Bellevue, OH 44811**
